DFI

CPU Supports

Supports AMD Phenom II processors (Socket AM3)

Chipsets

AMD 790FX + SB750

On-board Power / Reset buttons

CrossFireX Ready

All Solid Capacitors

6 Fan Headers

AMD Features

* AMD Over Drive (AOD) ready!
* Get better gaming experience by AMD "Fusion for Gaming" utility! www.amd.com

Genies BIOS

Genie BIOS is the best BIOS in the world. There are hundreds of setting of CPU, memory, FSB, multiple and great voltage setting with the most intervals. Users can customize their own LANParty series for ultimate performance.

ABS II + CMOS reloaded

DFI ABS II technology upgrade your CPU automatically without press any key! The overlocking file will execute & save into firmware when turn on the PC first time. With ABS II, anyone buying a DFI motherboard from the BI, JR or DK series, regardless of their overlocking skills, can enjoy increased performance from their current components by default.

Based on the large-sized CMOS and "CMOS Reloaded" function, you can save up to 4 BIOS profiles in ROM. Furthermore, you can also backup & share it via ABS application.

HT 3.0 & DDR3 support

Hyper Transport 3.0 & 1.0 Ready
Supports DDR3 1066/ 1200/ 1333/ 1600 (O.C.)

Marvell Gigabit LAN

Marvell 88E8056 brings 15% higher speed than competitors.

7.1 Channels HD Audio

Realtek ALC885 7.1 channels audio codec brings the true to life listening experience to you!

Debug LED

How to know system status when crash or unstable? With LANParty digit diagnosis LED, user can get system status information immediately.

Smart Connector

The hardest procedure during DIY a PC is to "connect" the front panel signal cable. Power switch, Reset, Power LED, H.D.D. LED, Beeper, there are 5 connectors have to be installed in a tiny space. By using "Smart Connector", the procedure will be much easier.

Replaceable North Bridge Cooler

North bridge cooler could be removed alone! Users can install different kind of cooler without damaging the chip.
